

CSRBOX - AICTE Internship Offer Letter

Dear Mr./Ms BANDELA MAHESH

Internship ID: 2026AICTECSRBOX3404

Date: 11-Mar-2026

Congratulations on being selected for the **6-week Virtual IBM SkillsBuild - AI Strategy & Business Intelligence Internship 2026**, offered in collaboration with **AICTE**. We are pleased to welcome you to this exclusive industry-aligned internship, designed to develop practical, job-ready skills in **Generative AI, Agentic AI, automation, workflows, and modern AI integrations** using tools such as **IBM Watsonx, IBM Granite, Python, Google Colab, and Relay**.

This internship features a curated learning experience with hands-on training, guided mentorship, expert-led masterclasses, and real-world AI project development aligned with the **UN Sustainable Development Goals (UN SDGs)**. Upon successful completion of all requirements, you will receive an **Official Internship Completion Certificate**. The internship is scheduled from **02 March 2026 to 12 April 2026**.

Key Benefits of the Internship

- Access to the Digital Learning Platform with **85,000+ curated industry-relevant courses** on emerging technologies.
- A project-based, collaborative learning environment for enhanced practical understanding.
- Expert-led masterclasses conducted by Subject Matter Experts (SMEs).
- Opportunity to work on **real-world AI projects** demonstrating practical capabilities.
- Earn **industry-recognized certifications** from AICTE and CSRBOX to strengthen your professional profile.

This internship will help you build strong capabilities in **machine learning, data analytics, problem-solving, critical thinking, innovation, and applied AI implementation**, enabling you to become industry-ready professionals.

Internship Timeline and Structure

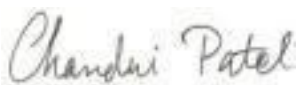

Week 1	Orientation Session – Introduction to IBM SkillsBuild platform, internship flow, expectations & tools
	IBM SkillsBuild Learning Plan + IBM Badge – Generative AI principles, advanced prompting, chatbot development, AI-enabled software development workflows, and agentic AI capabilities
Week 2	Masterclass 1: AI-Driven Web Architecture & Interface Design – Introduction to designing modern web applications with AI-powered features, intelligent interfaces, and scalable architecture
Week 3	Masterclass 2: Intelligent Conversational Systems for Customer Experience – Overview of building AI chatbots and conversational systems to automate support and improve customer engagement
Week 4	Masterclass 3: Autonomous AI Agents for Business Automation – Exploring how autonomous AI agents can perform tasks, automate workflows, and support business operations
Week 5	Masterclass 4: Deploying AI Applications to Production – Understanding how to deploy AI solutions into real-world environments and ensure their performance and scalability
Week 6	Mentoring Session – Industry-led discussion on role expectations, responsibilities, and career pathways
	Project Creation & Submission – Building a functional AI Agent using Python, Colab & Relay; documentation

Certification Requirements

- Complete the assigned learning plan on the Digital Learning Platform.
- Develop, submit, and present a final project.
- Adhere to the internship schedule, masterclass participation, and all program guidelines.

Stipend: Please note that this internship is unpaid.

We look forward to your active participation in this dynamic and impactful learning experience.
